TURN-KEY PACKAGING SYSTEMS

From your process to primary and secondary packaging

- ① **Product Handling**
Product distribution and accumulation systems designed for ease of cleaning, Poka-Yoke and TPM principles.
- ② **Flow Wrapping**
An extensive range of hand fed and automatically fed flow wrappers for efficient packaging of your products.
- ③ **Carton forming**
Either integrated into a Monoblock unit or stand-alone carton forming solutions.
- ④ **Top Load Carton Filling**
Vision based robotics or robotic picking from a racetrack collator allows for flexible pack pattern loading.
- ⑤ **Carton Closing**
Either integrated and stand-alone carton closing solutions.
- ⑥ **Top Load and Wrap-Around Case Packing**
End-of-line solutions with robotic top load and wrap-around case packing options.

HANDLING & FLOW WRAPPING

Cavanna offers a wide portfolio of flowpackers, to match the needs of different products and industries (bakery, confectionery, ice cream, pharma, ...). Flowpacks protect the products till the final consumer with safe and hermetic packaging.

- Hygienic-designed distribution systems, buffers, feeding systems, and flowpacking machines are offered.
- Wash-down execution is available for applications requiring deep cleaning.
- Quick changeovers and tool-less (PokaYoke)
- Seamless integration of devices required by the different industries.

TOP LOAD CARTONING

The Cavanna secondary packaging range is very wide and allows to form, fill and close cartons at high speed and high efficiency through cartesian robots, pick and place and innovative vision systems.

Integrated, compact robotic islands dedicated to forming, filling, and closing all the main carton/cardboard presentations: boxes, displays, trays (with or without lid).

A complete and integrated packaging solution, both with flowpackers and with all the main peripheral functions (weighing, quality control, coding, etc.).

WRAP-AROUND & TOP LOAD CASE PACKING

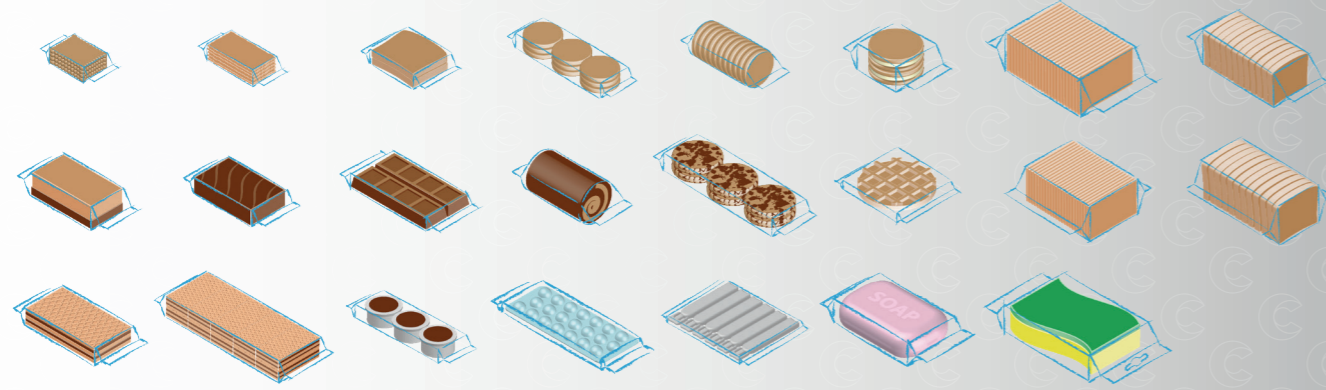

The new generation of Cavanna's Wrap-Around case packing machines are compact, flexible, and efficient, with numerous references in many different product sectors.

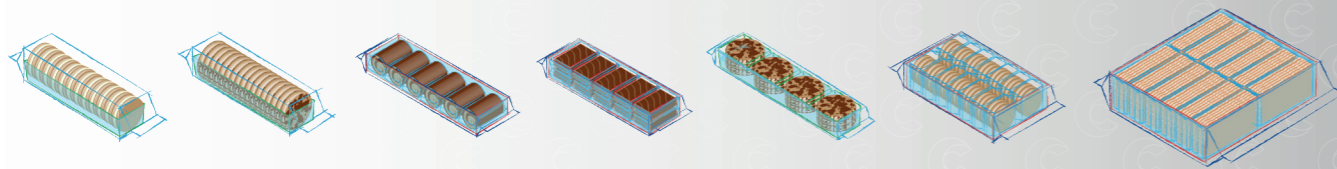

- Wrap-around casepackers
Compact, flexible and integrated wrap-around packaging solutions, with references across-industries.
- Display box casepackers
Innovative Retail-Ready packaging solutions for displays, cases and tray+lid presentations.

LIFE CYCLE SUPPORT: CAVANNA SERVICE

Our full range of support to guarantee continuous assistance

-  **Assistance** On site | Remote
-  **Maintenance** Corrective | Preventive
-  **Upgrades** Changeover | Revampings
-  **Training** On site | In House
-  **Spares** Corrective | Preventive
-  **C-Connect** Customer Digital Platform | Interactive Catalogues | E-Learning | IoT OEE Monitoring | Troubleshooting
-  **Other services** Packaging materials consulting | Rental wrappers | Second-hand wrappers | Co-packing | Sustainable packaging

WHY CHOOSE CAVANNA?

5 reasons we're the preferred choice

- Over 60 years of experience in **robust turn-key solutions**; from handling to primary and secondary packaging
- **Hygienic design** and **wash down** execution for a deep cleaning
- **Local service hubs** for prompt post-commissioning support
- **Seamless remote support** for part identification and ordering
- Your **highest OEE** with minimal labor, enhancing your market competitiveness
